2IN1 WINDOW SQUEEGEE

VisaVersa® Pro: CLEANING IN A FLICK OF THE WRIST.

UNGER reinvents the legendary cleaning tool from 1989.

The **VisaVersa® Pro** combines a washer and window squeegee in a single cleaning tool. The tool's significant improvements guarantee professional cleaning with top results.

Save time: Simply flip it over, so no need to waste time changing cleaning tools on your telescopic pole. Additional benefits:

The **VisaVersa® Pro** pad stores plenty of water, which means fewer trips to your bucket, and the removable window squeegee allows for quick, streak-free drying.

Cut costs: The **VisaVersa® Pro** saves money because you don't have to buy separate tools. Plus, the pad is machine washable and reusable, and we also offer replacement pads, channels and rubbers.

Work ergonomically: The **VisaVersa® Pro** weighs significantly less than other tools, meaning that it is easy on your joints and you can work without tiring. And the non-slip handle ensures greater safety both in your hand and when attached to a telescopic pole.
